Press Release

India's Chandrayaan-3 lunar mission reached moon on 23 August, 2023. Chandrayaan-3 is a follow-on mission to Chandrayaan-2 to demonstrate end-to-end capability in safe landing and roving on the lunar surface. It consists of Lander and Rover configuration. It was launched by LVM3 from Sriharikota, India. The propulsion module carried the lander and rover configuration till 100 km lunar orbit. The propulsion module has Spectro-polarimetry of Habitable Planet Earth (SHAPE) payload to study the spectral and polarimetric measurements of earth from the lunar orbit.

Following the success of Chandrayaan-3, many world leaders including the President of the European Commission, Prime Minister of Spain and Prime Minister of Norway congratulated Prime Minister of India Mr. Narendra Modi.
